KOKET FIRISSA

ABOUT ME

I am a second-year Electrical Engineering student with strong leadership skills and a passion for teamwork. As a self-taught programmer and peer tutor, I enjoy sharing knowledge and leveraging technology to solve real-world problems. I actively seek opportunities to innovate and make a positive impact, always ready to take the initiative. Beyond my technical skills, I am also a confident public speaker, effectively communicating ideas and inspiring collaboration. My goal is to use technology as a force for good, contributing to solutions that improve lives and drive meaningful change.

WORK HISTORY

November 2023 - Current

Higher Colleges of Technology - Peer tutor, UAE

- Working as a peer tutor at my college has been an incredibly rewarding experience. I had the opportunity to assist fellow students in understanding complex concepts, and seeing their grades improve significantly was truly fulfilling.
- This role not only strengthened my technical knowledge but also deepened my appreciation for the power of sharing knowledge.
- Guiding others toward their academic goals taught me the importance of patience, effective communication, and mentorship. It reinforced my belief that education is a collaborative journey, and I am motivated to continue helping others achieve success.

July 2024 - September 2024

Headstarter - Software Engineering Fellow

- At Headstarter, I had the opportunity to immerse myself in the field of software engineering, where I actively contributed to various projects and initiatives.
- My responsibilities encompassed collaborating with the team to develop and implement innovative solutions, leveraging my skills in Python, JavaScript, CSS, and HTML.
- I was also involved in web development and machine learning endeavors, gaining hands-on experience in these areas.

SKILLS

- Full-Stack Development
- Machine Learning
- Web Development
- Python
- Tutoring
- Leadership
- Team Management
